WP1- NA1.1: ACTRIS Management and coordination
Deliverable D1.2: ACTRIS Web portal

Address of the ACTRIS web portal: www.actris.net

An initial version of the ACTRIS website was implemented and operational before project start at M1 (April 2011). The current version of the website (cf. Figure 1) has been implemented in M3 (June 2011). The ACTRIS web portal comprises a public extranet site - aimed as platform for information exchange on the project (partners, work packages, network stations, objectives), project activities and ongoing events, including opportunities for transnational access, access to the data portal, documentation material including publications and other dissemination material. Furthermore included is a password-protected intranet site to hostproject-internal and confidential information, e.g., official documents, deliverables, meeting minutes, presentations, reporting material, on-going project documentation such as standard operating procedures, recommendations, workshop results, and publications in preparation.

The web portal is continuously being updated.
